Our services

General Contracting

We take on the full build as main contractor, for residential and commercial sites.

Real Estate Development

Residential and commercial property developed for owners and investors, from planning to handover.

Infrastructure Development

Access roads, drainage, culverts, walkways and site services for estates, businesses and communities.

Site Supervision

Our supervisors and HSE officers are on site daily, running inspections and inductions.

HSE Compliance

Risk assessments, PPE checks, inductions and stop-work authority on every site.

Artisans & Professionals

Verified artisans, crews, architects, engineers and surveyors matched to your job.

Material Supply

Cement, blocks, iron rods, roofing sheets and more, delivered through vetted suppliers.

Finishing & Remodeling

Interior and exterior finishing, renovations and remodeling of existing buildings.

Custom Site Structures

Water tank stands, gates and fence rails, car porches and gazebos, fabricated on site.

Where we work

Lagos · Abuja · Port Harcourt · Ibadan · Kano · Kaduna · Enugu · Benin City

How we work

1 Enquire

Call the hotline, WhatsApp or email your brief.

2 Site visit & scope

We assess the site in person and scope labour, materials and trades.

3 Quote & contract

You receive a written quote and contract before any work or payment.

4 Mobilise

We assign verified artisans, professionals or a crew, and order materials.

5 Build & supervise

Supervisors and HSE officers run daily inspections and safety inductions.

6 Handover

Final inspection, sign-off and documentation.

Health & safety

- Risk assessments and PPE checks before high-risk work begins
- Safety inductions for every artisan and sub-contractor before site access
- Stop-work authority for our HSE officers if a site becomes unsafe

Pay safely

Haj-Mai Contractors only confirms pricing and takes payment through the hotline and the official company account. Never send money directly to an artisan, professional or supplier.
